👑 Jet Plane Security Tiers 👑

Official Master Plan Blueprint for ToyLantis (TMM)

Feature / Capability	🛡️ Jet Plane Premium (Paid)	⚡ Jet Plane Max (Paid)	❌ Unpaid / No Plan Selected
System & File Scanning	Scans the entire Mac for hackers and viruses.	Scans the entire Mac with maximum priority and depth.	Scans run, but threat cleaning is locked out.
System Safeguards & Uninstallation	**Strict Protection:** System files are left completely untouched. App uninstallation and file cleaning are restricted safely to **user files and user-level Application Support paths**.	Includes all deep system protections and targeted user-level uninstallation safeguards.	Uninstallation and cleaning tools are completely locked.
AI Chatbot & Helper	**Standard AI Assistant:** Provides interactive chat against the background image, general system guidance, routine task assistance, and simple conversational commands for scans and uninstalls.	**Supercharged Elite AI & Creator:** Features advanced threat forensics, autonomous remediation, acting as an impenetrable real-time shield against hackers and viruses.	**Completely Unavailable:** The chatbot is locked and inaccessible.
Free Trial & Payment Rules	Requires a paid subscription to function.	**10-Day Free Trial:** Grants every new subject full, unhindered access to all Max features upon installation, followed by	**Useless State:** The app remains dormant. It cannot clean threats or chat—its **only** function is sending notifications that a virus or hacker was
